

A large, vertical paintbrush is the central focus of the advertisement. The brush head is at the top, with a white cap and a dense array of black bristles. The handle is white and extends down to the bottom of the frame. The background is a collage of various surfaces: a black wrought-iron fence on the left, a green-tinted window with a grid pattern on the top right, dark wood cabinets with silver handles on the right, a light-colored wall with a white electrical outlet on the bottom right, and a light wood surface on the bottom left.

The Johnstone's logo is centered in the lower half of the page. It features a dark blue banner with the word 'JOHNSTONE'S' in white, bold, sans-serif capital letters. Below the banner is a small white box containing the text 'since 1890'. Underneath that is a gold-colored shield-like shape with a white border, containing the word 'Speciality' in a white, cursive script font.

A paint for every surface...

The Johnstone's Speciality Range provides solutions to those specialist jobs around the house. Every product has been specially developed by the experts at Johnstone's so you know that whatever the problem, tricky surface or makeover project - Johnstone's has the answer.

To make it extra easy for you to find the right product for your job we have split our range into three categories:

tackle tricky areas...

In any household we can stumble across problem areas such as damp patches or heavy staining that needs to be covered. All of our Johnstone's Speciality products are formulated using our expert knowledge to give the best results for these demanding jobs.

Learn more on page 16.

your surfaces...

When it comes to painting, preparation is the most important part. It's not the most interesting or exciting part of the process but it really does help you get the best possible finish from your topcoat.

A primer helps the paint stick to the surface and stops it from cracking and peeling, to turn whatever you're preparing into a smooth, uniform surface that's ready for paint.

To make your life a little bit easier, we have 3 primers that will prime nearly any surface between them. So with the Johnstone's

Speciality primers you'll be able to prepare almost anything for painting. Simply choose the most suitable product for your project...

What are you preparing?

- Metal

transform any space...

Sometimes we have areas or items in our home where regular emulsion paint just simply isn't enough and we need that little something extra to make them over.

Covering everything from traditional wooden beams to garage floors and metal railings, the Transform products in the Johnstone's Speciality range provide paint for an extra special finish.

What is being transformed?

- Garage door
 - Railings
 - Metal furniture
 - Gates
 - or another metal surface!
- Radiators
- Black Wood
 - Metal
- Blackboards
- Garage floors
 - Interior cement or stone surfaces
- Doorsteps
 - Bricks
 - Tiles
 - Stone

Problem Solver ✓

tackle tricky areas...

There are some walls that can be particularly hard to paint because they've developed a tricky spot.

After it's been resolved, a previous damp problem can leave behind an unsightly looking area, and there can be some stains that will take many coats of emulsion paint to cover and still bleed through after leaving for some time.

To make sure that these problems are a thing of the past, the Problem Solving products from Johnstone's Speciality have been specially developed to target these areas.

What problem needs resolving?

- A damp patch

- Stained walls

Paint to cover damp

See page 17

Paint to block stains

See page 18

Paint to Cover Damp

- ✓ Great covering power
- ✓ Specifically formulated to safeguard against damp seeping through the final decoration
- ✓ Can be applied direct to damp surfaces

Technical information

Coverage
4m²
per litre

Dry in
14-16
hours

Sizes available:

2.5 litres
750 ml

Colour:

White

Use with...

Johnstone's
Matt, Silk or
Soft Sheen

Cover damp in 3 easy steps...

1. Ensure surface is clean, dry and free from loose and flaking material.

2. Apply an even coat of Johnstone's Paint to Cover Damp. Ensure the affected area is covered completely.

3. Apply any Matt, Silk or Soft Sheen Emulsion in the colour of your choice to provide a decorative finish.

Use on...

Paint to Block Stains

- ✓ Excellent coverage
- ✓ Prevents stains from bleeding through
- ✓ Developed to eliminate stains caused by nicotine, marker pen, wax crayon, graffiti, tannin and bitumen

Technical information

Coverage: 10m² per litre

Dry in: 3 hours

Size available: 750 ml

Colour: White

Use with...

Johnstone's Matt, Silk or Soft Sheen

Cover stains in 3 easy steps...

1. Ensure, as far as possible, that the stain is clean, dry and free from dust.

2. Stir well before use and apply Johnstone's Paint to Block Stains by brush or roller. Ensure that an even coat is applied, covering the stain and a surrounding area of 20cm to ensure maximum containment.

3. Apply Johnstone's Matt, Silk or Soft Sheen Emulsion in the colour of your choice to provide a decorative finish.

Use on...

Food and drink stains

Wax crayons

Graffiti

Nicotine

All you need...
to get the job done!

With Johnstone's comprehensive paint range, you can choose from a wide range of colours and finishes to create your perfect home.
